

COOL GADGET INTRODUCTION

Have you heard of the cool gadgets called "Smart Speakers"? The leading brands of these devices are Amazon (Echo, Echo Plus, Echo Dot, Echo Spot, etc.) and Google (Home, Home Mini). They connect to your home Wi-Fi and can "do" things for you from telling you the weather to finding phone numbers to turning on smart lights to playing music or adding items to the grocery list on your phone. They are voice activated so you talk to them! You can check them out at most retailers that sell computers and accessories (Best Buy, Walmart, etc.) to see what they can do and if one might be helpful to you!

TCC provides high-quality Internet, Cable, & Phone services to a large rural area. We are a cooperative which means our customers are owners and we are very locally-focused. TCC offers honest and up-front pricing with no contracts, no hidden fees, and no confusing details. We invest our time and resources in our communities. We don't use big promises and small print. We offer reliable services at reasonable prices and we have friendly, local staff to answer your questions and provide support for your services.

SUMMER FUN!

There are many events in our area throughout the summer including TCC sponsored events: Park Beats in Osseo (pictured on the right), the Trempealeau County Fair in Galesville, local baseball games, music at Schultz's Country Barn, and more!

Keep track of area events on TCC's Facebook page, local newspapers, or through local community web and Facebook pages.

DIGGERS HOTLINE COLORS

When Digger's Hotline marks lines they locate, they use colored flags to denote what kind of line(s) they located. Knowing what kind of line is buried helps you contact the proper company for questions about the line/services.

It is very important to call before you dig!

Hitting a buried line costs other customers time and frustration if their service is out and it cost you and the utility company hundreds or even thousands of dollars to repair and could cost you more than that -- it could cost you your life!

It is the law to contact Digger's Hotline at least 3 working days before you dig so all buried lines can be properly marked. You can contact them by phone at **811** or **1-800-242-8511**. You can also contact them online at www.diggershotline.com.

Utility Location Color Code: Flags or paint in the following colors denote designated facilities

-  **Red:** Electric Power Lines, Cables, Conduit and Lighting Cables
-  **Yellow:** Gas, Oil, Steam, Petroleum or Gaseous Materials
-  **Orange:** Communication, Cable TV, Alarm or Signal Lines, Cables or Conduit
-  **Blue:** Water, Irrigation and Slurry Lines
-  **Green:** Sewers and Drain Lines
-  **Pink:** Temporary Survey Markings
-  **White:** Proposed Excavation
